

Saskatchewan Squash Junior Program Funding Guidelines:

Sask Squash will receive projected rosters from all junior squash programs in the province twice per season, once by Oct. 15 and once by Jan. 20. The points, as described below, are totalled for all junior programs and then the funding is allocated accordingly for each half season soon after that.

Sask Squash will also receive actual rosters of all programs after each half season, once by Jan. 1 and once by June 1 in order to adjust the points and next half-season's funding according to the actual rosters for each half season.

To qualify as a **Recreational** player within a junior program, counting as one point towards the Sask Squash junior funding calculation - A junior must be a member of Sask Squash and regularly attend the program's sessions (not once in a while, not every so often, certainly attend more than half of a program's training sessions, when they are not participating in a tournament).

To qualify as a **Competitive** player within a junior program, counting as three points towards the Sask Squash junior funding calculation - In addition to the above, a junior must be at least eight years old and compete in at least one out-of-town tournament in a competitive, non-novice event during the season.
